***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given by Mr. John Chupa during a telephone interview on June 21, 2006.

The application has been amended as follows:

Cancel Claims 1-26, 37, and 42-47.

Replace Claim 48 with the following:

-- Claim 48 (Currently Amended) A method for capturing and processing data generated from first and second dissimilar transducers each of which normally transmit data in respectively unique formats, said method comprising the steps of:

creating a model of said first transducer;

creating a model of said second transducer;

creating a hierarchal data format;

causing said first transducer to transmit data only in said created hierarchal data format and only after first sending said created model of said first transducer;

causing said second transducer to transmit data only in said created hierarchal data format and only after first ending said created model of said second transducer; receiving said transmitted model and data from said first transducer and said transmitted model and data from said second transducer and using said received models to process said received data; and  
providing an output which is based upon said processed received data. --

### ***Reasons For Allowance***

The combination as claimed wherein causing the first and second transducers to transmit data only in said created hierarchal data format and only after first sending said created models of said first and second transducers (claim 48) is not disclosed, suggested, or made obvious by the prior art of record.
